## **DETAILED ACTION**

## Election/Restrictions

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-10, drawn to a fabric label, classified in class 442, subclass 65.
  - II. Claims 11-26 and 30-39, drawn to a process for creating a label, classified in class718, subclass 100.
  - III. Claims 27-29, drawn to a computer-readable medium, classified in class 717, subclass 100.

The inventions are distinct, each from the other because of the following reasons:

- 2. Inventions of Group II and Group I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product as claimed can be made by another and materially different process. The product as claimed can be made without a computer database of information. Directly inputting information for the fabric label rather than selecting the information from a computer database can make the product as claimed.
- 3. Inventions of Group I and Group III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different functions. The invention of Group I functions as fabric label while the invention of Group III functions as a computer-readable medium.

Application/Control Number: 10/707,616

Art Unit: 1771

4. Inventions of Group II and Group III are related as process and apparatus for its practice.

The inventions are distinct if it can be shown that either: (1) the process as claimed can be

practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed

can be used to practice another and materially different process. (MPEP § 806.05(e)). In this

case the apparatus as claimed can be used to practice another and materially different process.

The apparatus as claimed can be used to electronically store, send, and/or display fabric label

information on a computer.

5. Because these inventions are distinct for the reasons given above and have acquired a

separate status in the art as shown by their different classification, restriction for examination

purposes as indicated is proper.

6. In the event that claims directed to the product are elected, and a product claim is

subsequently found allowable, withdrawn process claims that depend from or otherwise include

all the limitations of the allowable product claim will be rejoined. Therefore, upon the election

of Group I, rejoinder will be considered upon indication of allowable subject matter pursuant to

MPEP 821.04.

7. A telephone call was made to Kevin Kercher on 9/16/2005 to request an oral election to

the above restriction requirement, but did not result in an election being made.

8. Applicant is advised that the reply to this requirement to be complete must include an

election of the invention to be examined even though the requirement may be traversed (37 CFR

1.143).

Application/Control Number: 10/707,616

Art Unit: 1771

## Conclusion

Page 4

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew T. Piziali whose telephone number is (571) 272-1541. The examiner can normally be reached on Monday-Friday (8:00-4:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Terrel Morris can be reached on (571) 272-1478. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
